

B1 Print & Delivery

Simplicity at work

B1 Print & Delivery is an advanced Crystal Report integration, enabling users to email all their communication with customers and vendors from SAP Business One, in any language, saving them tons of time and briefcases of money. By activating one Crystal Report, users can manage all Marketing Documents making B1 Print & Delivery the ideal tool to customize the customer's system in a quick, easy and profitable way.

With B1 Print & Delivery you can define when a document (Email, PDF etc...) should be processed and sent with an easy to use schedule.

The screenshot shows the SAP Business One Sales Order window. The 'Item/Service' list on the left includes items 1 through 8. A context menu is open over item 3, with 'B1 Print and Delivery' highlighted. This menu includes options like 'Copy', 'B1 Usability Package', 'Attach document', 'Email', 'PDF', 'Word', 'Excel', and 'Edit'. The main window displays order details for customer C20000, including a table of items and a summary of totals.

Qty	Unit Price	Disc...	VAT C...	Total...
1	120.00 \$	0.000	PA	120.00
1	750.00 \$	0.000	PA	750.00

Before Discount	Total
3,522.00 \$	3,522.00 \$
Discount	
Light	
Rounding	211.32 \$
	3,733.32 \$

B1 Print & Delivery can take over the entire document handling process for sales and purchase documents. You have the option to control each of the delivery methods (print, show, email, PDF and add document).

You can also work with multiple layouts of different business partners or on the fly choose a different layout.

Each single action you can do with a report can be customized in details with the powerful report action configuration.

You can set up individual actions or group them together in a multi-action (Example: print and email with one click).

“ We send around 800 invoices every month, and I anticipate that 80% of these can be sent with the Print & Delivery. With a typical cost of €4 for every invoice that we send out, we now make a saving of more than €25,000 per year. Furthermore, we get hold of the correct e-mail addresses that can be used in future contact with our customers. ”

Sjur Gilje, Manager, Hjulius AS, Norway
