BE ACCURATE

Deliver the right information at the right time with B1P&D's scheduler.

MASTERING EMAIL

INFORMATION IS POWER

Keep your team up to date with business objectives, news, and essential internal communication through B1P&D's out-of-the-box integrations with Microsoft Teams and Slack. And that's not all – connect to any application that allows HTTP calls by writing custom JSON code.

3. AUTOMATE THE COMMUNICATION FLOW

TAKE THE FIRST STEP

Enter your data in SAP Business One and let B1 Print & Delivery do the work for you. Automate communication by handling documents and reports with multiple action types such as emailing, printing, viewing, and saving, without user interactions of any kind.

AND GO BEYOND

Combine actions from B1 Print & Delivery with the flexibility and customization potential of B1 Usability Package macros to automate SAP Business One like never before!

GOODBYE MANUAL TASKS

Get rid of manual tasks by firing multiple B1P&D actions at once.

THREE-MODE AUTOMATION

Enhance each task-flow in SAP Business One by choosing the appropriate automation mode: triggered by user event, batch or schedule.

DID SOMEONE SAY 'HARD COPIES'?

If printing documents is still a reality for you, do it as efficiently as possible. Set the parameters for each layout and forget about it. B1 Print & Delivery takes care of everything, from the number of copies to the selection of dynamic printers in remote environments.

4. OPTIMIZE YOUR WORK

BUSINESS-PROVEN LOGIC

Use what you already know works. B1 Print & Delivery has a similar logic to the B1 Usability Package Validation System. Determine triggers based on user events and how the system responds to them. This way, B1P&D has the capabilities required to meet any of your business's communication challenges.

YOUR BUSINESS, YOUR RULES

Configure B1 Print & Delivery actions to match your needs by using conditional statements, or by redefining standard SAP Business One events (like adding, printing or viewing a document, generating a PDF file, exporting data to Excel, etc.). With B1 Print & Delivery, the system adapts to your process, not the other way around.

FULL DOCUMENT COVERAGE

Choose from more than 40 ready-to-use layouts for the most common SAP Business One documents, including Sales, Purchase, Finance, Opportunities, Business Partners, Banking, Inventory, Production, and Service modules. Also, map any additional SAP documents to cover even the most specific scenarios.

COMPATIBILITY GUARANTEED

Use document layouts and reports in Crystal Reports and save them in a variety of file formats, such as PDF, Excel, Word, CSV, HTML, XML and more!

ALL-IN-ONE LAYOUTS

Make maintenance and customization extremely straightforward with a single layout for all SAP Business One Marketing Documents.

ALWAYS IN CONTROL

Keep track of users' actions with a detailed Delivery Log.
