SAP® Certified
SAP Business One Integration

What can Produmex WMS do for your business?

Produmex WMS is a sophisticated and comprehensive warehouse management solution for SAP Business One that can transform your logistics processes into finely tuned operations that drive productivity and profitability in your supply chain. The solution supports multiple warehouses and operators, processing high volumes of transac- tions all while maintaining high performance.

All supply chain transactions are supported in real time, including Container and PO receiving, pallet build and directed put-away on the inbound side, and Pick Management (including Truck Route capabilities), inventory allocation, picking with shelf life considerations, pack out with compliance and shipping labeling and shipping on the outbound side. Deep lot/batch and serialization capabilities make Produmex WMS a strong fit for regulated industries, with support for GS1, SSCC and GS1-128 barcodes improving both productivity and accuracy. The system is rounded off with Integrated Quality Management and Scale/Silo integration.

"THE BIGGEST VALUE THAT PRODUMEX WMS BY BOYUM IT HAS GIVEN US IS VISIBILITY AND CLARITY OF OUR INVENTORY FOR THE SALES TEAM."

"We have also been able to automate dispatching, inventory rotation, expiry date and lot management - things we had never envisioned but which we were able to accomplish with Produmex WMS by Boyum IT."

Maria Gutierrez, Operations Manager, Tolteca Foods

Solution targets

SAP Business One's core architecture is designed for Wholesale and Distribution companies, many of which have complex supply chain requirements that Produmex WMS can cater for as standard.

Today the majority of companies are part of a global supply chain that requires speed, agility, traceability and often compliance. Produmex WMS delivers core warehouse functionality to meet these needs while remaining adaptable.

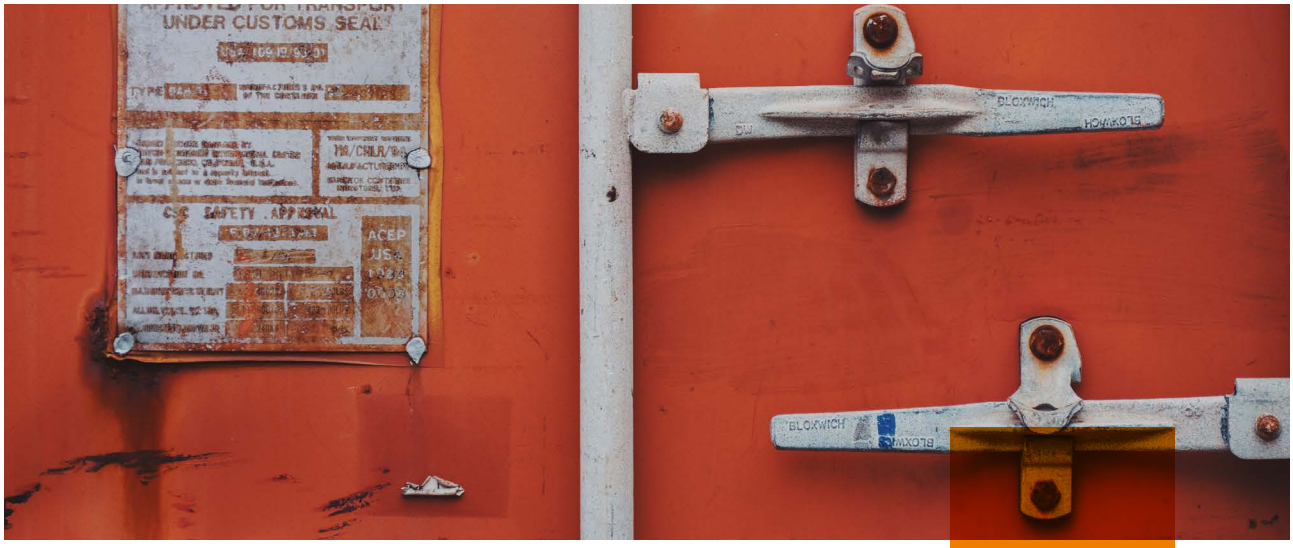
The strength of Produmex WMS lies in its comprehensive feature set for Warehouse Management requirements, from simple inventory transaction processes to license plate (SSCC) support, to customer-focused inventory allocation strategies. Sophisticated batch attribute management, and the complete backward and forward traceability provided by Produmex WMS enables customers to become fully compliant quickly and easily.

Our customers

Over three hundred satisfied customers use Produmex WMS worldwide. Many have leveraged built-in, best practice functionality to get up and running quickly, while others have used its extensive and configurable functionality to transform their businesses into dynamic distribution organizations.

Here are a few of our satisfied customers:

- An ethnic Food Service Company in the Atlanta metro area has improved inventory visibility and fill rates, while streamlining their route planning and delivery loading processes to significantly increase customer satisfaction.
- A leading Dallas, Texas based skin care company has leveraged real-time transaction processing and detail traceability to ensure that they process customers' orders quickly and accurately.
- An innovative Office Space Design company from Colorado efficiently creating, developing, manufacturing and distributing office designs and furniture using the benefits of barcoding to rapidly process thousands of transactions seamlessly and accurately.



Solution capabilities

COMPLETE WAREHOUSE MANAGEMENT COVERAGE

- Warehouse, bin, zone, silo/tanks, docks and picking carts
- Full License Plate (SSCC) Support, including nesting

COMPLIANCE

- Advanced Batch and Batch Attribute Management
- GS1 and SSCC Label Print and Scan provides adherence to industry requirements

EXTENSIBILITY AND INTEGRATION

- Weigh Scale Integration
- Integration with Produmex EDI
- Integration with Warehouse Automation Equipment
- 3PL Processing Support

Key benefits

INCREASE PRODUCTIVITY

LEVERAGE BARCODE SCANNING TECHNOLOGY TO STREAMLINE ALL WAREHOUSE TRANSACTIONS

Scanning is 10 times faster than manual transactions. Processing more transactions with higher accuracy increases productivity in all areas of the warehouse.

INCREASE ACCURACY

BARCODE SCANNING DELIVERS GREATER ACCURACY THAN MANUAL TRANSACTIONS.

Easy processing of non-tracked as well as Batch and Serial transactions combined with a flexible warehouse, zone, and bin structure help achieve almost 100% inventory accuracy on both a quantity basis and a location by location level.

IMPROVE VISIBILITY

COMPLETE REAL-TIME INTEGRATION PROVIDES INSTANT VISIBILITY AND TRACEABILITY

Having one version of the inventory "truth" helps drive costs down and customer satisfaction up. Never guess again whether or not you have the stock or where it is located.

SOPHISTICATED

REDUCE INVENTORY AND OPERATING COSTS

Produmex WMS enables you to streamline your warehousing operations, increase your visibility and align stock availability with customer demands. Increased productivity and better control combine to reduce costs.

INCREASE CUSTOMER SATISFACTION WITH IMPROVED COMPLIANCE

Enhanced traceability and support of GS1 standards combined with SSCC tracking increase compliance with customer requirements.

ADAPTABLE

QUICK AND EASY TO CONFIGURE TO SUIT YOUR DATA AND PROCESSES

Using familiar Boyum tools you can readily adapt screens, labels and processing in your warehouse to meet your specific requirements.

PROVEN IMPLEMENTATION METHODOLOGY

Superior documentation, training videos and unparalleled support make it possible for your SAP partner to get you up and running quickly – gaining the benefits of Produmex WMS in minimal time.
